Study, Study, Study,...

I have placed both a practice multiple choice and a practice free response on the web page. Enjoy.

The final exam is a mix of multiple choice and free response questions. There will be a total of 200 points. You may bring one page of notes that are handwritten. Any late work you wish to be considered must be turned in by Monday. No promises I will get to it but I might.

There will be an extra credit assignment that you can do over winter break. It can be worth as much as 50 points. There are ten review problems and they are worth 5 points each. It will be graded right or wrong. There will also be some POGIL assignment for break that you will be responsible for.
