

**AP Chemistry**  
**Syllabus**  
**Week of August 13, 2018**

Is Everybody in?, Is Everybody In?!?!, Is Everybody in? The ceremony is about to begin.

- Jim Morrison

**Schedule:**

<i>Day</i>	<i>Date</i>	<i>Topic</i>	<i>Reading</i>
Monday	8/13	Pupil Free Day	
Tuesday	8/14	First Day Stuff	
Wednesday	8/15	Test on Chapter 1 and 2	Page 127-133
Thursday	8/16	Qualitative Analysis Lecture	
Friday	8/17	Flame Test Lab	Page 140-154

**Problem Sets:**

All summer homework will be collected on Tuesday the 14<sup>th</sup>. This is two problem sets downloaded from the web page and five POGIL assignments. The POGIL can be done in a group but everyone must turn in their own paper.

These are due on Wednesday 8/22:

Page 171 # 18, 36, 38, 40, 41, 42, 46, (Precipitates)  
# 55-58 (Acid Base)

**Announcements:**

You will be receiving a book by Zumdahl. The readings and homework are from the Zumdahl book. When you look at other books the page numbers won't agree but the chapter numbers are basically the same. It will require that you spend some time getting used to having to read the book. Unlike your honors or regular chemistry class last year you will need to read the book on a regular basis.

It is mandatory that you get a lab book right away. It must be bound and not a loose leaf or spiral style. This will be illustrated for you in class. Our first lab book lab is next week so you must have it before then. I just saw them at Rite Aid, Staples, and some other stationary stores. It is sometimes called a composition book. Get the one with graph

paper if you can. We will be having about ten after school labs this year. Not one every week but quite a few in the early part of the year.

You will receive a syllabus like this every week via the web page that covers the week and the next week. Do Not Lose These. Print them out and keep them in your notebook. The syllabus will be on the web page under the menu "Syllabus" and then click on the pdf for the correct week. Make sure you are looking at the AP Chemistry syllabus.

I will never accept the excuse that you didn't know something was due. All assignments are listed two weeks in advance. Keep this in your notebook. *A separate binder for AP Chemistry is necessary.* You should have dividers with the following headings:

- |                  |             |
|------------------|-------------|
| 1. Syllabus      | 4. Tests    |
| 2. Handouts      | 5. Labs     |
| 3. Lecture Notes | 6. Homework |

**Next Week:**

<u>Day</u>	<u>Date</u>	<u>Topic</u>	<u>Reading</u>
Monday	8/20	Acid Base Reactions and Precipitation	
Tuesday	8/21	Precipitation Lab	
Wednesday	8/22	Discuss Homework	
Thursday	8/23	Unknown Precipitate Lab	Page 154-170
Friday	8/24	Balancing in Acidic Solutions	

**Problem Sets:**

These are due on Wednesday 8/22:

Page 171 # 18, 36, 38, 40, 41, 42, 46, (Precipitates)

# 55-58 (Acid Base)

Later:
